BIODEGRADABLE LAWN BAGS, LEAF AND BRUSH COLLECTION

All yard waste generated by a landscaper/contractor must be removed from the property by that party and may NOT be left at the curb. The only exception is leaves during vacuum leaf collection season.

YARD WASTE COLLECTION (BIODEGRADABLE BAGS, BUCKETS, OR CONTAINERS)

Throughout the year sticks, twigs, hedge trimmings and small amounts of leaves can be placed in biodegradable bags, buckets, or containers and will be collected every week. See below for details on vacuum curbside leaf collection information.

- Leaves are still to be raked to the curb for vacuum collection - the bags are NOT a replacement for the curbside collection of leaves (see below for details on vacuum leaf collection)
- Weight of bags/containers is NOT to exceed 40 lbs
- There will be NO COLLECTION of any yard waste in PLASTIC bags.
- Grass clippings are NOT permitted in the biodegradable lawn bags

LEAF COLLECTION (VACUUM)

Leaf collection begins on October 1st and runs through December 31st.

- Place leaves at the curb or the edge of the roadway in long rows
- Do NOT place sticks, branches, stones, weeds or mulched grass into the leaf pile
- After January 1st, all leaves should be placed in containers or biodegradable lawn bags for pickup

BRUSH COLLECTION (WOOD CHIPPER)

Brush collection is ongoing throughout the year (weather permitting).

- Stack brush on your side of the sidewalk with the butt end of the branch toward the road
- Keep branches long – 8' to 12' is good (the machine does not do well with short branches)
- Do not mix logs or vines with the brush
